SOFTWARE DEVELOPER

Diverse expertise in bridging software technology with experience in ERP system development and exposure to industrial power environments. Skilled in backend development, system integration, and web development with practical experience in high-voltage substation protection systems and automation control.

SKILLS

Web development	Mobile development	Data analysis
Backend development	Flutter / Python / Java / JavaScript / PHP / PLC	Critical thinking skills

WORK EXPERIENCE

Electrical & Control Systems Engineer

Oct 2025 - Feb 2026

Aden 120MWp PV Project - Aden, Yemen

- Installed and configured protection control panels for high-voltage main circuits.
- Assisted in integration of CT, CVT, and auxiliary transformers into protection circuits.
- Connected protection panels to the SCADA system for real-time monitoring and remote control.
- Assisted in Installing circuit breakers within 33kV switchgear and auxiliary transformers wiring.
- Performed AC and DC control wiring for protection relays, breakers, and automation systems.
- Conducted signal testing, panel functionality testing, and insulation checks.

Software Developer

Sep 2024 - Feb 2025

ProSite Yemen - Sana'a, Yemen

- Developed ERPNext systems to meet client-specific business requirements.
- Built and tested new ERP modules.
- Contributed to creating technical documentation and user guides for ERPNext systems.

PROJECTS & CERTIFICATES

Samaform Architectural Firm CMS & Client Portal | React, Node.js, PostgreSQL, PHP

2026

Built a custom CMS with complete website customization and content management from a secure admin dashboard. Developed a dynamic client onboarding form to capture complex spatial design plans and project requirements.

International English Language Testing System • Band Score 7.5

2024

Flexiblea | Dart, C++ Developed cross-platform mobile application for flexible job recruitment that provides more agency for freelancers.

2023

Researched how user experience in e-commerce can be improved by implementing smart contracts in the payment process.

2021

Fundamentals of Deep Learning • MAHSA University

2021

Able to build, train, and fully apply deep neural networks.

Big Data 101 • MAHSA University

2020

Acquired Knowledge on the use case of big data & the application of big data in businesses.

EDUCATION

Bachelor of Information Technology (Hons)

2024

MAHSA University - Malaysia

2:1

Foundation in Science

2019

MAHSA University

O - LEVEL

2018

IMAS school, Putrajaya
